Search Engine Optimization

Search engine optimization is method of strategies, techniques and tactics used to increase the amount of visitors (traffic) to a website by obtaining a high-ranking placement in the search results page of a search engine (SERP) — including Google, Bing, Yahoo and other search engines.

Content Marketing

Content marketing is the marketing and business process for creating and distributing relevant and valuable content to attract, acquire, and engage a clearly defined and understood target audience – with the objective of driving profitable customer action.

Social Media Marketing

Social media marketing (SMM) is the use of social media websites and social networks to market a company's products and services. Social media marketing provides companies with a way to reach new customers and engage with existing customers

Affiliate Marketing

A way for a company to sell its products by signing up individuals or companies ("affiliates") who market the company's products for a commission.

Email Marketing

Email marketing is the act of sending a commercial message, typically to a group of people, using email. In its broadest sense, every email sent to a potential or current customer could be considered email marketing.
